

Delcorf

Parent plants

 + Jongrimes x  Golden Delicious.

Origin

Pépinières et Roseraies G. Delbard,
Malicorne, France.

Growth

Moderate to strong. Has a fairly horizontal branch arrangement and fairly upright growth.

Flowering

Reasonably early. Quality of the pollen is good. Self-intolerant, meaning cross-pollination is required.

Recommended pollinators are: Braeburn, Cox, Elstar, Gala, Golden Delicious, Idared, Malus Evereste and Malus Professor Sprenger.

Productivity

Early and good, however with a clear tendency to biennial bearing. Timely pruning required.

Harvesting

Mid August up to the beginning of September. Required to continue harvesting on various occasions.

Appearance

Medium-sized, fairly round to cone-like fruits. Yellow base colour with a slight streaked orange-red blush.

Quality

Creamy white, juicy and fairly firm to firm fruit flesh. Fairly good, somewhat aromatic taste.

Storage life

Up to mid October. Good shelf life.
